

STRETCH OUT ON THE STREET

PIZZEY CAFE SCREENS... MODERN, FLEXIBLE, AFFORDABLE

Are you tired of chasing your cafe barriers down the street?

Our frameless stretch barriers offer a great alternative with a modern look.

The hook and loop system offer quick and easy set-up and pack away, and won't clog up your premises when not in use. Posts slot into in-ground sockets for greater stability.

Ideal for cafe and restaurant alfresco dining.

Let Pizze Streetscapes give your site the competitive edge.

Features

- Contemporary, clean and durable
- Posts and inground sockets are made from marine grade stainless steel
- Stretched panels are made from quality outdoor fabrics (to match your umbrellas or awnings)
- Suits all outdoor locations.
- Your choice of sizes, colours and fabric styles and budgets
- Removable posts with hook and loop roll-up panels pack away into 'milk crate' trolley.

Benefits

- Packs away quicker smaller and easier than standard wind barriers
- Our proprietary 'O' Lid in-ground sockets have no flip-up parts to jam, break or injure the public
- No need for heavy weight bags
- No more falling over or blowing away
- Council friendly (MCC approved)
- Low maintenance and easy to clean
